

DO YOU BUY THE NARRATIVE or DO YOU BELIEVE IN SCIENCE?

NARRATIVE

CLAIM : The number of cases of COVID-19 is evidence of the severity of the pandemic, and justifies the measures and mandates used to protect the public and ensure the "Greater Good." The PCR Test is able to detect cases of infection of COVID-19. Cycling thresholds of 35-45 produces accurate results.

CLAIM : COVID-19 represents a serious threat to children in terms of complications, hospitalizations, and death.

CLAIM : Lockdowns, Social Distancing, Mask Wearing, Border Closures and Contact Tracing are based on sound scientific evidence and proven results during previous pandemics.

CLAIM : It is not possible to develop natural immunity to COVID-19, which is why public health measures are in place until acceptable vaccination rates have been reached.

SCIENCE

PCR Tests cannot provide direct pathogen detection (RKI)
PCR Tests cannot define infection according to IfSG ACT
PCR Tests cycling above 35 Cycles produce false positives at an average rate of 97%. Drosten Et Al
<https://www.stopworldcontrol.com/downloads/en/legal/science/drosten.pdf>

Children between the ages of 5-11 have a 0.00012% chance of being one of the .04% of people who die with the virus listed as COD, the virus that after 20 months still has around a 1% infection rate among the population.
<https://www.fda.gov/media/153508/download>

The CDC, WHO, and many governments around the world had pandemic response plans BEFORE 2019 that specifically advise AGAINST all these measures, citing scientific evidence why they are not beneficial.
No new scientific discoveries were made that lead to these new pandemic response practices.
GlobalFreedom.substack.com

A study from MIT and Harvard University found that COVID-19 recovered persons still had robust immunity after 8 months, unlike mRNA COVID-19 vaccines which have 3-6 months efficacy at best.

DO YOU BUY THE NARRATIVE or DO YOU BELIEVE IN SCIENCE?

NARRATIVE

CLAIM : "Asymptomatic Spread is driving the pandemic of the unvaccinated."

CLAIM : "COVID-19 Vaccines are fully approved for use and have passed all standard testing for safety and efficacy."

CLAIM : "COVID-19 Vaccination is the only thing that can end other measures like Lockdowns, Masks and Social Distancing, as we must protect ICU's from running over capacity."

CLAIM : "All approved COVID-19 Vaccines are safe and effective."

SCIENCE

Four researchers from the University of Florida Department of Biostatistics co-authored a study published online by the Journal of the American Medical Association. They found no evidence of Asymptomatic Spread.

<https://archive.fo/gcuUf>

Both the FDA, Canada Health, and all Governments around the world have only given Emergency Authorization, which is not the same as normal regulatory approval.

GlobalFreedom.substack.com

The most heavily vaccinated countries such as Israel and Gibraltar (100% double vaccinated population) clearly show that Vaccination is not controlling the spread, as these countries have much higher than average cases per capita.

GlobalFreedom.substack.com

There has been more COVID-19 Vaccine deaths than any other Vaccine reported on VAERS combined, and they do not stop the spread. They are therefore, neither "safe" nor "effective."
